WUD
Outdoor Living

WUD Outdoor inspired by nature and life

At WUD Outdoor, we create outdoor furniture and accessories that embody the contemporary era. Our products are developed from materials that retain the integrity of outdoor furniture without compromising the sophistication of indoor furnishing. Inspired by nature and life, our furniture can be placed anytime, anywhere, regardless of season and setting.

In pursuit of "Outdoor Living", we design furniture with an inclusive language that is unlimited by spatial boundaries, for users of all backgrounds to explore the many ways to integrate design with space. Joining the strengths of "Designed in Nature" and "Made in China", WUD Outdoor hopes to bring products that are both modern and accessible to anybody who appreciates good furniture.

STRING

Simple and pure, from lines into a plane, this is the design concept of String series. Each piece in this collection is completed with a suspended structure and a hand-weaving technique to create a classic, timeless impression. The high-resilience PVC ropes like the countless strings are tightly arranged in one go, bringing a wrapped sitting experience. Three frames of carbon black, rice white, clay color are unified with the color of ropes, giving the chair a delicate texture.

CHIC

Chic folding chair was born to pay tribute to the classic Director's Chair in 20th century, and its design inspiration can be traced back to the earliest. In ancient Rome. Through modern technology, Chic folding chair has simplified and optimized the chair structure to the maximum extent, and every part is integrated. Body casting, reinterpreting standardization from excellent details. Its firm chair body consists of metal frame and hand-sewn three-dimensional sewing fabric. Quick-drying sponge is built into backrest and seat surface, which has both aesthetic feeling and sitting comfort. In daily use, Chic folding chair is easy to store, showing quality and weight. And can be applied to various scenes.

PILLOW

The PILLOW is the result of Kun's exploration for the possibility of outdoor upholstery. Continuous adjustments were made during the development process to find the current structural proportion that merges functionality with streamlined aesthetics. The back and armrest cushions of the collection resemble soft pillows - just like the collection name - whose coverings can be removed for easy cleaning. Wrapped with KunDesign Tex, a material with remarkable durability and resistance to outdoor conditions, the quick-drying cushions are designed to be placed outside. Seated on a teak or bamboo base frame to create a textual contrast, which are FSC certified in consideration of the environment. With versatile modular components, the Pillow sofa is suitable for all interior and exterior settings.

RUGBY

An interactive conversation between metal, wood, and fabric resulted in the design of the RUGBY series. The upholstery's plump shape is relieved by spindle shaped-legs, so the resulting structure takes on a refreshing rather than chunky appearance. The armrests have a width and height that match the body's natural arm placement, and also serve as partition from the cold metal frame. Constructed with comfortable materials that are weather-resistant, the collection can be used in all spaces, both outdoors and indoors. With quality and weather proof teak wood set on aluminum legs, the lounge coffee table is designed to complement the contemporary lifestyle. It is deliberately set at a height that allows the table to be used not just for a singular purpose, but as a versatile and multifunctional product in your home.

FLOW

Flow Swing is designed for leisure time to make the outdoor life full of fun. Its inspiration comes from the magic carpet in the myth story, trying to capture the happy time of childlike innocence through a special form. The swing is light, stable, and in a dynamic style. The seat has a slight arc shape, stretched with waterproof PVC fabric, can be used together with a soft cushion. Its handrails on both sides add teak elements for a natural touch. LED lights are hidden inside the canopy to provide light for reading or at night. In structural design, the stainless steel rockers can present a stable and smooth swaying effect. The swing also uses a smart flat packaging design which is more convenient for transportation and installation.

RIBBON

Ribbon Stool is an abstraction of natural things and simple manual-era life. It conveys a relaxed and beautiful emotion. Its round shape looks like vigorous seeds, leaves, plump succulent plants and grains. The banding design represents the easy 'hand tying' actions, such as bundling hay, tying a bouquet or a gift. Ribbon Stool has a multi-layer design with removable surface cover for easy cleaning and replacement, waterproof liner, and bottom counterweight for excellent outdoor performance. The stylish color and a variety of sizes make it flexible. This Stool can be used with dining tables, sofas or as combination furnishing of commercial space.

MOONCAKE

Inspired by joyful holiday moments in life, the Mooncake stool is shaped like a traditional snack in the Mid-Autumn Festival, with continuous arc design and bright colors, presenting a light and cheerful playfulness. This all-aluminum stool is waterproof, easy to clean and maintain. It is suitable as an item to decorate the courtyard or indoor space. It can also be used as a side table to create a vibrant atmosphere.

BALANCE

A return to the basics was the central theme at the start of our weight table design process. Weights are used as mass standards to express our understanding of the load bearing of the table. The lines on the weights are designed with respect to the golden ratio, thus the top and bottom components are firm and secure. The series of weights also have symmetrical upper and lower end-tables, with the upper one removable to serve dual functions of storage and flower arrangement.

LOTUS PLANTER

The Lotus planter continues to express the family character of the series, with the central column shaped like a petal and a continuous combination of one petal to another. The overall flowerpot upper matches the rhythmic base of the petals below, achieving a more aesthetically pleasing ratio. This series is more suitable for home use with four reasonable sizes to meet your different plant needs.

ROOT PLANTER

Root flowerpot refines the "rooted" state of wild plants, and expresses full vitality with abstract design language. It consists of an ellipse. It consists of a tub and a bracket, which can be split up and down. The unique "V-shaped" structure creates a feeling of strength sprouting upward. Among them, the tube basin. The prototype is taken from the vessels of the North African tribes, which is round and simple; The three feet at the bottom are as light and stable as the root system of a plant that goes deep into the soil. Solid. This bracket is not only convenient to move, but also improves the air permeability of the flowerpot, which is beneficial to daily planting. Color matching of Root flowerpot comes from. In the Gobi and oasis of nature, the fine sand-like spray texture presents matte texture. Can satisfy people. Demand for different plants can be used outdoors or at home.

KUNDESIGN Rope is a weaved Selected PP fibre. The material has a soft surface that acts like a fabric. Avoid pulling/pushing the material too hard as this may cause it to lose its shape. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.
